

SNOW REMOVAL PLAN

Snow Removal Information:

- Columbia College Campus Elevation: 2, 195ft
- Check the following websites each day for weather awareness
 - www.weather.com
 - <http://www.wrh.noaa.gov>
 - <http://www.kcra.com>
 - <http://www.wunderground.com>
- If Sawmill Flat, the road leading to the campus are impacted with snow, call the following agency: Community Resource Agency or CRA at **533-5633**
- If Highway 49, the road leading to the campus are impacted with snow, contact Cal Trans:
 - Cal Trans Sonora: **209-984-4438**
 - CHP Jamestown: **209-984-3944**
- Security operates 24 hours a day and will contact the Campus Facilities Manager I about every two hours during the night to inform of the condition of the campus.
- In the event of snow, morning custodians will need to be called and asked to come in at 6 a.m. instead of 4 a.m.
- All maintenance staff begin at 5 a.m. on a snow day so that snow can be removed by 8 a.m.
- Facilities is required to keep the roads open for the dorm residents from 8 a.m. to 8 p.m., 7 days a week.
- Facilities staff will ask to leave early, in that they came in early, and that is acceptable as long as the campus has coverage; usually only one or two ask to go early.
- Vehicles 1090 and 1080 are the two plows that can remove snow at Columbia College; both should be ready prior to any snow storm, stocked with 2/3 sand and 1/3 snow melt in the slinger.
- For snow or ice removal, staff are usually assigned to the following equipment and or task:
 - 1090/plow truck Frank
 - 1080/plow truck Darin
 - Backhoe Rich
 - Bobcat Sam or Scott
 - Kubota Joe
 - DR Joe
 - DR Scott
 - Morning Custodians: Shovel paths and spread ice melt/sand as required for their run
 - Office staff: Help as needed.

SNOW REMOVAL PLAN

Stairs and small paths of travel:

Oak Pavilion: Remove snow or place ice melt on the paths of travel to the Oak Pavilion and the stairs on the side of the building.

■ **Student Parking:** Remove snow or place ice melt on the stairs leading to the Alder building.

■ **Pinyon, Ponderosa, Child Develepe, Madrone, Mahogany, Sugar Pine, Willow:**

- All of these buildings have small paths of travel and some stairs.
- If the snow is really heavy and you are having trouble opening, clear one entrance and exit path to each building.
- All staff will communicate and work in areas that need attention.

Heavy Rains:

- During heavy rains, the campus can sustain about 7" during a 12-hour period without too many problems. If it exceeds that amount, check the drainage around campus and check the lake level.
- If the lake is rising, contact TUD, Eric Hall at 532-5536 Ext. 531 or 770-1577 (cell); there is about a 15- minute response time, typically he will increase the drainage to the lake so that no buildings are damaged.
- If the TUD Ditch system seems to be rising, contact Eric or 770-8929 or Kurt Beyers (cell) (209) 985-3694.
- Landslides are common during a heavy rain period. Campus should be checked periodically.
- Symons Field - Roadway between Oak and Symons Field and Symons Parking Lot.
